

# WHY should I donate my computer to CREAM?

Every computer and monitor contains **toxins such as lead, cadmium and mercury.**

By choosing to donate your computer, you prevent the disposal of these toxins in our landfills and help our community through skill development. Students processing and refurbishing the computers will benefit from hands-on experience. Offenders housed at the Clark County Jail Work Center will be provided the opportunity to develop meaningful and productive skills.

CREAM partners are

City of Vancouver

Clark College

Clark County

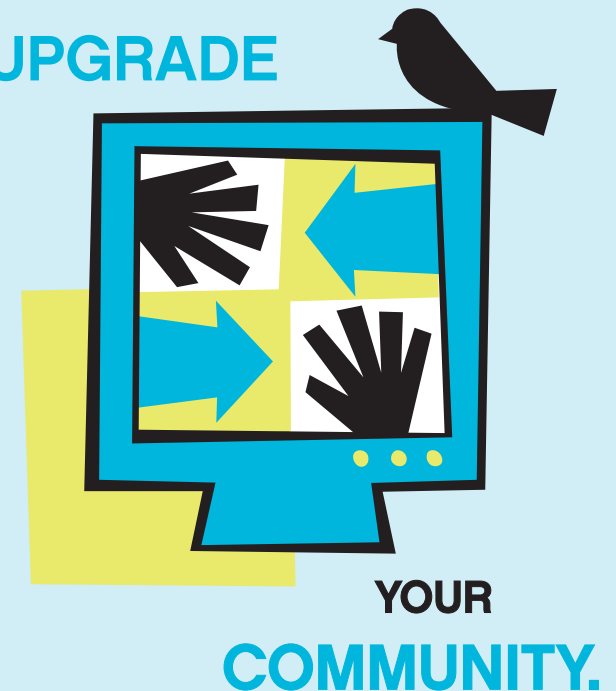

Columbia Resource Company

The Salvation Army

Waste Management

# WHAT can I do with my old computer?

UPGRADE

**Donate your computer to CREAM**

CREAM is a local partnership working to direct usable computers to beneficial reuse or responsible recycling.

Printed on 100 percent recycled paper containing 50 percent post-consumer waste.

8/05

# WHERE can I donate my computer?

## Clark County residents only.

If you are a business or not a county resident, please call (360) 696-8186.

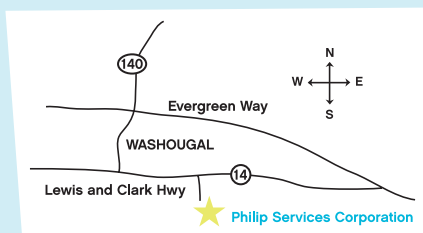

## Philip Services Corporation

625 South 32nd St.

Washougal, Washington

First Tuesday of each month

10:30 A.M. to 3:30 P.M.

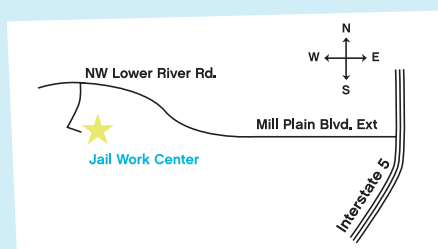

## Clark County Jail Work Center

5197 NW Lower River Road

Vancouver, Washington

Monday through Thursday

9:00 A.M. to 11:30 A.M. & 1:00 P.M. to 4:00 P.M.

## Electronics accepted

Computer monitors, TVs, printers, answering machines, calculators, camcorders, scanners, speakers, VCRs, typewriters, FAX machines, cell phones, and other computer related electronics.

## Electronics NOT accepted

Microwaves, toasters, hair dryers, or other appliances. These items may be donated to a non-profit organization if they are in good working condition.

## What will happen to my computer?

Clark College students will refurbish reusable computers. Refurbished computers (along with keyboards and monitors) will then be distributed by the Salvation Army to adults and children who can benefit from having access to a computer. The hard drives from all usable computer systems will be erased and written over in an effort to prevent anyone from accessing any information remaining on the hard drive. Computers and other electronic products that are not reusable will be disassembled. All recyclable materials will be recycled.
